

## **High Priority**

Graeme Oldham and Danny Folpp are **High Priority**, the most up-to-date professional duo currently performing. Their ability to re-create songs in a live setting for all ages to enjoy is eerie. Their song list which is in excess of 200 songs, is diverse and entertaining, and includes songs from artists such as The Doors, Stevie Wonder, Elton John, the Beatles, Faith No More, Coldplay, Bob Marley, David Bowie and many more from past and present.

**High Priority's** philosophy is based around their understanding that events such as weddings, parties, functions and everything in between require a diverse range of music from a long list of genres.

High Priority is talented to accurately re-create a range of classic tunes using only two people and a variety of instruments including vocals, keyboards, synthesizer, backing tracks and guitars.

**High Priority** are "crowd pleasers". Entertainment is the name of the game. The two boys have developed a high-energy act based on their unique rapport, witty banter and stage presence. Whether it's relaxed background music, toe tapping, hip shaking party favorites or a full tilt rock show that you're after, **High Priority** can accommodate you.

Graeme & Danny are intelligent entertainers, quick to assess the crowd to select the right sort of material to keep them contented. The boys know how to work a crowd to hold them in your venue and keep them up and dancing..... and a dancing crowd is a happy crowd.

Make it a priority to book "**High Priority**" for your next party!
