

Secret Society is one of the premier rock acts in Newcastle and they are ready to teach audiences how to party. With an incredible female vocalist their live show gets even the most diehard wallflower looking up from their beer and moving towards the stage. An energetic live show has become their hallmark with the band often leaving the stage to groove with the locals.

Secret Society's repertoire covers a wide range of material from top 40, rock, pop, funk, dance as well as old classic rock'n'roll. With an extensive set list the band keeps even the most diverse crowds happy.

Jules Grono - Lead Vocals & Guitar

Jules' energy and enthusiasm for performance has audiences jumping around on the dance floor and singing along the moment the band kicks into gear. Jules has a passion for rock music that is evident as she belts out the vocals and revs up the crowd. She has rocked audiences from the Shoalhaven to Wollongong and loves showing Newcastle audiences what she's got.

Shane Radcliffe - Lead & Rhythm Guitar & Vocals

Shane is the cornerstone of this band and as he thrashes out the riffs crowds are unsure whether they're watching Angus Young from AC/DC or Slash from the Gunners. Shane's solid guitar style lays the platform for the other members and is guaranteed to make the crowds sit up and listen.

Jason Hart - Bass

Jason brings his heart & soul to the table the minute he begins pumping out the bass. His unique playing style will have you rockin' like you've never rocked before. There are no words to describe this guy, you will have to come & check him out & make up your own mind.

Tony Chester - Drums, Percussion & Vocals

Tony has been hitting the skins since he was twelve and has become a highly skilled and sort after drum teacher. He now gives Newcastle audiences a lesson in rocking. His driving beats shake the floor and keep the music tight. His quiet personality is shrugged off as he sits down on stage and unleashes his fury on the drums.

Secret Society are here to leave their mark on the Newcastle music scene. Their big sound and great live show has the crowds screaming for more. The only thing audiences are not sure about is who's having more fun, them or the band.
